"QUIT YOU LIKE MEN"

DR. KANE'S BACCALAUREATE SERMON AT WABASH COLLEGE.

The Value of Self-Respect in Making Manly Men, and the Sovereignty of Real Manhood.

WORTH OF TEMPORAL THINGS

SHOULD NOT BE EXALTED TO THE DETRIMENT OF THE ETERNAL.

Neither Should It Be Minimized—Ambition All Right if One Is Not Too Ambitious for Worldly Things.

Woman Professor at Purdue Will Undertake a Difficult Feat.

Special to the Indianapolis Journal.

CRAWFORDSVILLE, Ind., June 14.—This is commencement Sunday at Wabash College, and a large audience assembled at the college assembly hall to hear the baccalaureate sermon, delivered by President Wm. P. Kane, president of the college. In the evening the commencement exercises were delivered by Rev. O. D. Odell, pastor of the Second Presbyterian Church, of Indianapolis. President Kane's baccalaureate was from the text, "Quit you like men," 1 Cor. xvi, 13. Among other things, he said:

"This brief exhortation voices Paul's crowning ambition for himself and for his fellow-servants in the household of faith. His wish for them, above all things, was that they should be men. He was a qualified, however, by defining Paul's conception of what it was to be a man. No man, perhaps, has ever had a more thorough knowledge of the Christian thought itself more strongly than in his conception of ideal manhood. Philosophers, statesmen and teachers in all ages have set forth their conception of what man should be and might be. These conceptions have been many and varied, and measure the real attainment and possibilities of an age or a civilization. Paul's conception of man is a possible partaker of the divine nature. His conception of man is a possible partaker of the divine nature. His conception of man is a possible partaker of the divine nature. His conception of man is a possible partaker of the divine nature.

RIOTING IN FRANCE.

Clericals and Anti-Clericals Clash on Corpus Christi Day.

PARIS, June 14.—Troubles were anticipated to-day on the occasion of the Corpus Christi procession, the anti-clericals threatening to provoke counter-demonstrations. In Paris the day passed off without any serious incidents, even at churches like the Madeleine and St. Sulpice, where, disregarding the advice of the prefect of police, processions issued from the edifices and marched around the church inclosures.

Some disturbances, however, are reported from the provinces. At Nantes, where the prefect forbade the procession, the clericals mobbed the prefecture, stoned and broke the windows and smashed two sentry boxes. Detachments of gendarmes and dragons drove back the demonstrators. A collision also occurred between the Catholics and Socialists, in which several persons were badly injured and thirty others arrested. The principal squares in Nantes are occupied by the troops to prevent further disorders.

Minor disturbances are also reported from Brest, Dunkirk, Lyons and other places.

LIVE AND MODERN CITY

VINCENNES IS OLD IN HISTORY, BUT IS ENERGETIC AND PUSHING.

Its People Are Proud of Their Past, But Are Earnest and Progressive, Building for the Future.

Correspondence of the Indianapolis Journal.

VINCENNES, Ind., June 14.—The student of history who has read about the historical features of "Old Vincennes" and never visited them surely has missed a rare treat. He may stand on the hallowed ground at the very point where the forefathers fought, bled, and died, at the corner of Second and Church streets, with a full view of the suburb where Fort Sackville stood, and at the very spot where Captain Bowman, with his little company of Kentuckians, defeated the Indians in 1778.

From this point he may turn his attention to the cathedral, which was erected in 1825 on the site where the first cathedral west of the Allegheny mountains was built and where it can be truthfully said that the civilization of the Northwest Territory was born, where the ashes of the people of the Northwest were first buried. Their names are almost erased from the marble slabs which mark their resting places, but their memory is ever green in the minds of those who know their story.

The names of those who sleep beneath the crypt under the sanctuary are Bishop John Stephanus Basin, who died in 1796; Bishop Celestus Benatus Laurentius, died 1798, and Jacobus Maria Manlius de St. Palais, died 1878, and although they sleep with the father of nations, the lessons they propounded and taught still ring in the ears of the people. Vincennes, the most of them are Catholics. Of course, the most interesting of all the historical points and the one most mentioned by the Vincennes people is Fort Harrison, which was built for William Henry Harrison in 1803 and was the first brick building in the West of the head waters of the Ohio river. General Harrison having traded 400 acres of land to the people of Vincennes for the brick that was put in the walls of the fort. The eight rooms above were used as a storehouse, and the rooms below were used as a fort, with a tunnel running about 300 yards to the river, where canoes would be taken down the river to escape in case of danger. The entire framework and inside woodwork was made of sycamore and white oak. It was at Vincennes that the famous three days' conference, which was supposed to be a friendly one, but which was really a struggle, ended.
